

# One Off To Do Items

These are the known issues,

- Micheal has had reports of intermittent network issues,
  - Nothing concrete found
  - There are power issues
  - There are internet outages
  - There is evidence of Unifi updates happening around some reports

These are the bigger long term projects,

## **Cyber Essentials**

Has been supported by the Committee

Has a long way to go ...

## **Decommission the MS365**

There is still potentially sensitive data in the old tennant ... we need to action something

## **GDPR Data Mapping**

## **Commission internal AD**

## **What Anti-Virus option are we choosing ?**

## **Buy new servers**

---
